

Park Committee Minutes: July 11 2017

Call to Order: 6:05

In Attendance: Melissa Heagy, Bob Pilat, Scott Gumto, Karen Trempus, Doug Roth, and resident John Trempus.

Note: Due to rain, the committee moved the meeting from the Park to the Township Building then went to the Park afterwards. No action was taken at the Park.

Motion to Approve June Minutes: Motion Melissa, 2<sup>nd</sup> Karen. Motion Approved

Old Business:

Mowing: Township Supervisors voted to allow Scott Gumto to mow the Park as long as he doesn't exceed the \$500.00 per year as allowed by the Township Code. This spurred more discussion on mowing, a continuance of the June discussion which was thought to have been settled. Bob says a number of his neighbors and his wife go to Adams Park because the grass is too high, and the property doesn't look like a Park and they are worried about ticks. Scott agrees with Bob. Melissa explained that the portion that is not mowed is because it has not been developed. Doug said the Road Crew mows the trails at least every week and a number of people use the trails, he also added that he has not seen a tick. The Committee was reminded that this discussion was at the June meeting and at that meeting, the Committee agreed that the Park would be mowed in early July and decisions would be made in the future as to what is to be mowed regularly, what is to be mowed annually/semi annually and what will be allowed to grow out as secondary succession. Doug said he will talk to the Supervisors about this because it is ultimately the decision of the Board.

Note: If anyone has something to add to this let me know, I didn't take good notes during this discussion.

Keystone Ridge: Dog poop bag dispenser and bike rack has been delivered

Sign Removal: The Road Crew has not got around to removing the sign that is at the entrance to the park.

New Business:

Contractor and Millings: The Contractor was permitted to use a limited amount of millings, but Doug felt he sued more than what was agreed upon. The Contractor will buy the Township 80 tons of 2A at a later date.

Topsoil Berm: The contractor made a berm out of left over top soil, but it isn't very attractive. Part of the reason to meet at the park was to view the berm.

Restroom: The restroom will not be done until mid August. The company that manufactures the restrooms is behind on their orders.

Finish Date: No finish date has been discussed. The rainstorms that have been going through have hampered progress.

Other Business: For Community Day, it is agreed that pictures will be provided and answers to frequently asked questions available to those sitting at the booth.

Adjourn: 6:30 pm

Note: Bob, Scott, Karen, John and Doug go to the park for roughly a half hour. No action was taken.

Next Meeting: August 1<sup>st</sup>, 6:00 pm at Harcrest Park.
