

Park Agenda 10-1-19

Minutes from last meeting

Old Business:

-Penn Twp. Is still waiting to here from DCNR about the grant application. Hopefully between now and the end of the year we will know the results.

-Melissa is looking into a mountain bike trail and has contacted Trail Pittsburgh to have them take a look at the Park to see if it would be suitable for a trail.

New Business:

-Parking lot is paved at the storage building, and the electric work is complete.

-Contacted a barn removal guy in August about the old barn and after viewing it, he said he would take it down for no cost to the Township. He has not responded to any of my most recent attempts to see if he is still interested.

-Renfrew Park upgrade was approved by Township Supervisors. The existing playground will be removed, and a new rubberized fall material will be installed. The new fall material can be hosed off after a flood instead of having to be replaced as with the wood chips. The old volleyball court will be a pickleball court. The road dept. hopes to be able to preform many tasks to cut down on the costs. Currently we are waiting for a final design from HRG.

-The Audubon Society walked the Harcrest Park and will make recommendations to make the Park more bird and environmentally friendly. They talked of putting in a chimney swift tower that can also be used as a message board where we can post the park ordinance and announcements. They enjoyed the walk around the trails, and hopefully they will become more engaged in the future.

-I am still looking for a fifth member of the Park Committee, but not real hard. I have a man in mind, but haven't contacted him yet.

Other Business: Anyone have anything else? Let me know. If you have any questions about the Park or what the Township is doing, please let me know.
